GERMANS ADVANCE WITHIN 4 MILES OF COMPIEGNE BUT ARE HURLED BACK BY FRENCH

Enemy Penetrates to Aronde River, Representing a Maximum Advance of Seven Miles

RECAPTURE TOWN OF NERY

French Put up Stiff Resistance and Hold the Huns Back on the Left Wing

BRITISH LAUNCH ATTACKS

Advance Nearly Half of Mile on Front of Mile and Half Between Ancre and Somme

(By United Press.)

London, June 11.—British troops attacking south of Albert between the Ancre and the Somme, last night advanced nearly half a mile on the front of more than a mile and a half, Field Marshal Haig reported today. "We took two hundred prisoners and 31 machine guns," the statement said.

Paris, June 11.—German forces last night penetrated to within one mile of the Oise river, at Ridecourt, the French war office announced today.

The enemy also reached the Aronde river, within four miles of Compiègne, representing a maximum advance of seven miles, but were hurled back at this point.

The French not only held the Germans on the west wing but retook the town of Nery.

With the French army in the field, June 11.—The Germans have engaged between 20 and 30 divisions in the new drive, sending in battalions after battalions.

Heroic French resistance changed completely the entire character of the German drive in this attempt, from those which formerly insured the success of previous drives.

By counter attacking locally, at every point on the entire front from Montdidier to Noyon almost every minute, the French kept the first line troops almost constantly engaged and prevented them from being superseded by fresh troops.

Battling their way forward in the center of the Montdidier-Noyon line, the Germans are making slight gains. The French are resisting desperately and the fighting is the most furious of the present year. German advances have been made at heavy cost.

Along the valley of the Matz, the Germans are making their most rapid progress, but their advance there has not greatly affected the wings of the attacking front. The apex of the new salient extends from Mery to Elinecourt, about seven miles, Monday, in sanguinary hand-to-hand fighting the Germans captured Mery, Belloy, St. Maure and reached Elinecourt and Marquessglise. The deepest penetration has been to Marquessglise, two miles south of Reims-sur-Matz, a depth of about five miles.

On the western wing, the French line holds steadfast. Heavy and continuous attacks have made no impression on it. On the east the Germans have advanced from several hundred yards to a mile, the greatest gain being on the right center, in Thiescourt wood from which they are reported to have debouched.

Adding to the fierceness of the fighting is the fact that artillery is being used in great numbers by both contending armies. The French gunners, reports agree, have reaped a heavy harvest from the advancing enemy columns. Villages have changed hands repeatedly and the French war office says the French

4 Hoosiers In Casualty List Of 130

Washington, June 11.—The army casualty list today contained 130 names, divided as follows: Killed in action, 26; died of wounds, 3; died of accident and other causes, 3; died of disease, 7; wounded severely, 48; wounded, degree undetermined, 43.

Officers named were: Died of disease, Lieutenant Edward Hines, Jr., Chicago; wounded severely, Lieutenants Edmund Corby, New York, and James J. Lawrence, Atlanta; previously reported severely wounded, now reported slightly wounded: Captain John T. Costello, Binghamton, N. Y.

Four Indians were named as follows: Private Paul F. Cross, Shelbyville, killed in action; Private Bernard Hurst, Oldenburg, dead of wounds received in action; Corporal Wilbur M. Claggett, 230 North Cross street, Sullivan, and Private Philip Peterson, Hammond, severely wounded.

troops "filled with tenacity their mission of resistance."

In announcing the results of Sunday's fighting, Berlin reports the capture of 8,000 prisoners and some guns. The French resistance is reported to be stubborn. Monday night's brief statement says ground has been gained southwest of Noyon.

IS ATTACKED BY THREE SUBMARINES

British Liner, Together With Convoy, Probably Sinks Two of Them While Enroute to America

ONE SUNK BY A DEPTH BOMB

(By United Press.)

An Atlantic Port, June 11.—Three submarines were attacked and two probably sunk in European waters by a British liner and its convoy enroute to this port, according to reports made when the vessel docked today. One U-boat was probably destroyed by a depth bomb June 1, the captain of the liner said.

On the next morning a submarine approached close to the liner. The steamer tried to ram the U-boat. The liner's gunners opened fire, striking the conning tower of the ship and riddled it. The submarine vanished. Two hours later a submarine was sighted by a convoying vessel and was attacked.

MAY GET PRIVATE TESTS

Babies With Diseases Should Not be Taken to School.

Mothers whose children have whooping cough are urgently requested not to take them to the Graham school building tomorrow for the final scoring of the better babies contest. Babies in the contest who have contagious diseases, may be taken to a physician's office where they will be scored so they may compete for the five cash prizes which will be awarded, two firsts for the best boy and girl, two seconds for second best boy and girl and one prize for the best boy or girl. The scoring will be conducted from 8 a. m. to 5 p. m.

CLOTHES WORTH \$40 TAKEN

Taken From Porch in Rear of J. W. Hogsett Home Last Night

Clothing valued at forty dollars was stolen last night from the porch in the rear of the J. W. Hogsett residence in North Main street and no trace of the thief has been found. The stolen goods consisted of clothing and bath towels which had been prepared for the weekly washing. The table linens which had been placed in a separate packet and left on the kitchen table, were the only articles which remained untouched. The thieves evidently overlooked a large ham which was on top of the clothes chest. It was placed on the table and left untouched.

FRANK CALDWELL BACK FROM FRANCE

Former Rushville Man Who Has Been Doing Construction Work, Here For Visit.

HE LANDED LAST WEDNESDAY

Frank Caldwell, formerly of this city, who has been in France for several months with the firm of Stone and Webster, who had contracts to build several warehouses, has arrived here for a visit with his mother, Mrs. Sarah Caldwell, and other relatives. He landed in New York last Wednesday, having crossed the Atlantic on the Espain.

Mr. Caldwell says he could not swear before a jury that the vessel was chased by a submarine, but that she turned around once and started in the other direction. None of the passengers was aware of the German submarines operating off the Atlantic coast until they reached this country.

Paris was the closest Mr. Caldwell was to the battlefield. He tried to get a pass to see his nephew, Gus Williams, who is with a regiment of engineers, but was refused because no passes for travel north of Paris were given Mr. Caldwell did not visit the scene of the damage done by the German long range gun. He says the morale of the French people is excellent and that they are very optimistic about the future.

INDIANAPOLIS QUOTA WILL LEAVE SATURDAY

Nine Selectives Will Depart For Training School at 10:51 a. m. Over C. I. & W.

INQUIRY FROM STATE BODY

The quota of nine selected for the Indianapolis auto mechanic training school from Rush county class one registrants, will leave here Saturday morning at 10:51 over the C. I. & W. railroad, according to the train schedule received by the county army conscription board today. The same train will carry an increment of nine from Connersville and three from Liberty for the Indianapolis school.

The secretary of the State Council of Defense, John V. Wilson, has addressed a questionnaire to the local board, asking information about the support and co-operation given the members by attorneys, physicians, teachers and the County Council of Defense. The board will reply that all have assisted readily and willingly whenever they have been called upon to help the board in the work of classifying registrants for the draft.

A baby girl was born to the wife of W. R. Carmichael of St. Louis, Mo., yesterday afternoon, according to word received by relatives today. The baby has been named Helen Louise.

WORK FOR PLEDGES ON STAMPS QUOTA

Officials Want to Pile up Subscriptions on Year's Allotment Before June 28

THE CAMPAIGN CLOSES THEN

Intensive Work Starts June 24 and Will Close With Patriotic Demonstration

With six Hoosier counties already having reported a complete subscription of their War Saving stamp quota for the entire year, Rush county officials have set about to obtain numerous cash sales and \$1,000 pledges before "zero day"—June 28th.

The committee operating the campaign has seen the desirability of securing large pledges in amounts of \$1,000, \$750, \$500, \$250 and \$100 prior to Thrift Day which will result in a relatively small effort on the day set aside for the national drive, and at that time the time of the canvassers can be given over entirely to people of limited means in securing smaller subscriptions.

State, district and county workers are working in hearty co-operation in the preliminary arrangements for the campaign and in order that Thrift day may be the success expected, the intensive work will be started on Monday, June 24 and continue until Friday evening, when a patriotic demonstration will close the affair.

On account of the harvest and other farm work occupying the day and because of industrial plants running full time, any demonstration or meeting for the promotion of the sale of stamps will be held in the evening in order that no unnecessary time may be lost.

"In publicity, in addresses and in instructions to your workers, try constantly to disabuse the minds of the people of the too prevalent idea that this is a child's movement. It is a job of real magnitude, and only adults can handle the task satisfactorily," stated Frank E. Hering vice director of sales in Indiana, in a recent letter to Rush county officials, urging them to "speed up" on their sales and preparations for the supreme effort which will culminate on Thrift Day.

"A great many people in the state of Indiana bought their first Thrift and War Savings stamp during the week of May 27th to June 3rd," said State Director Joseph D. Oliver the other day.

"Some of them bought all they can possibly own, while others bought just enough to satisfy their conscience that they had taken their per capita quota for the week. And there were others who for one reason or another were not able to purchase even \$2.50 worth of stamps. But even one of these who started war saving during that week, unless they belong to that class members of which Uncle Sam will not allow to own any more than \$1,000 worth of stamps, still has opportunity to add to his collection and to further assist the Government in winning the war. I just want to leave this word of admonition and counsel to my fellow Hoosiers:

"If you have just begun to buy War Savings stamps go the limit between now and the 28th of June, and be mighty sure that you have reached your limit. The serious situation which confronts us in the conduct of the war should make every American dig deeper into his pockets. Sacrifice a little more that you may do a little more than you could do so that the total will add immeasurably to America's irresistible power."

ELKS STATED MEETING

A stated meeting of Rushville Lodge No. 1307, B. P. O. Elks will be held Wednesday evening at 7:30 o'clock.

BRAKES ON CAR REFUSE TO WORK

Mrs. J. T. Paxton Is Seriously Injured in Accident on Hill Near Dunlapville

PARTY HAS NARROW ESCAPE

Machine Skids Into Tree, Which Prevents It From Tumbling 15 Feet Down Embankment

Mrs. J. T. Paxton was seriously injured yesterday evening when the machine in which she was riding turned over and pinned her against a tree, crushed her ribs and bruised her back and arms badly.

The machine was driven by James Howe of Wichata, Kas., and the party, including Mrs. Paxton, Mrs. H. H. Elliott, Miss Florence Elliott and Miss Elizabeth Waite, was returning from Oxford, O., where they attended the commencement exercises at Western college, when the accident occurred.

At the entrance of Dunlapville, thirty-one miles east of this city, the driver had almost gained the top of a steep hill when he found it necessary to shift gears. The gear failed to catch and when Mr. Howe attempted to apply the brakes, he found that they refused to hold and the machine descended the hill, skidding to the edge of a fifteen foot embankment, where its contact with a tree kept the machine tumbling into the field below, which would doubtless have caused a more serious accident.

Mrs. Paxton was thrown back by the force of the car as it reached the tree, and was pinned between the tree and machine with the entire weight of the car resting on her body. As soon as the car was removed, medical assistance was called and Mrs. Paxton was brought to her home here. The remainder of the party escaped without injury.

HENRY E. GUFFIN DIES AT HOME EAST OF HERE

Former Representative in State Legislature Expires at 1:30 This Afternoon.

WIDOW AND FIVE CHILDREN

Henry E. Guffin, 55, a wealthy Rush county farmer, died this afternoon shortly after 1:30 at his home east of the city. Death resulted after an illness of a complication of diseases which the deceased had endured for six months.

Mr. Guffin, who was a lifelong resident of this vicinity, was born in Andersonville Jan. 25, 1863 and during recent years became one of Rush county's foremost agriculturalists. He was elected to the house of representatives from Rush county on the Republican ticket serving one term in the legislature of 1905.

The deceased is survived by his widow and five children, Fred E., Nellie, and Chase LaRue, who reside at home and Mrs. Alva Bitner and Mrs. Gano Perry, also of this county, and one granddaughter, Helen Louise.

NOT TO GET DEFERRED CLASS

Conscientious Objectors Can't Escape, War Department Says

Indianapolis, Ind., June 11.—Conscientious objectors must not be placed in deferred classes because of that reason alone.

This was the ruling received today from the war department at Washington by Major Baltzell, state conscription officer. Boards were ordered to re-open all cases where men were granted deferred classification on grounds of conscientious objection to the war.

REVIEW TO COVER DEFERRED CLASSES

County Selection Board Gets Instructions Regarding Re-examination of Questionnaires

BELOW 20% IN CLASS I HERE

Fact That 135 Were Put in Five, Most of Them Without Claims, Lowers The Percentage

A request that the county army selection board fix a week for reviewing the questionnaires of registrants given deferred classifications, and that the county appeal agent and the legal advisory board assist in the work, is contained in long instructions just received by the board from Major Robert C. Baltzell, state conscription agent.

The conscription officer calls attention to the fact that the percentage of registrants placed in class one by the local board is below twenty, whereas the average in the state is twenty-three and in the United States is twenty-eight and seven-tenths. Some boards in Indiana however, have as low an average as ten per cent.

The local board put 227 registrants in class one, out of a total of 1,467 registering. However, the fact that 135 men of draft age were placed in class five because of having enlisted in some branch of the service before they were called in the draft, served to reduce the number of men in class one. A large majority of those volunteering were men without claims for deferred classification, who would undoubtedly have been placed in class one. The district board has also been very lenient in dealing with agricultural claims.

The complete instructions from the state conscription officer, which are for the purpose of equalizing the burden of the war on all communities, in accordance with orders from the provost marshal at Washington, are as follows:

A very lengthy telegram of instructions has just been received from the provost marshal general. In view of the fact that the quotas are based upon class I, it is absolutely necessary that as nearly the same per cent of the total number of registrants be placed in class I as possible taking into consideration the local conditions. The average per cent placed in class I throughout the United States is 29.7 while in Indiana the average is approximately 23 per cent, thus our entire state is slightly below the average. The per cent in some local boards is as low as 10, thus creating a hardship upon the local board where the per cent is high. It is now a nation-wide movement to make as nearly as possible an equal per cent in class I throughout the country.

I fully appreciate the great work you have done in making the classification, and know that your work was done conscientiously, and it was well done. However, some registrants may have been given deferred classifications by the district board when conditions have changed to such an extent as to entirely change their classification at this time. This may apply to your local board also. The per cent of registrants placed in class I by your local board is below 20 per cent.

The following is the plan of the war department for review of cases before your local board which have been given deferred classification, and we ask that you kindly co-operate with your government appeal agent and legal advisory board in adjusting such cases as you deem advisable, thus building up class I to as nearly 28.7 per cent of your total registration as is possible. It is ordered by the war department that your government appeal agent and your permanent legal advisory board assist your local board in re-

viewing all your questionnaires,
where registrants have been given
deferred classifications, and fur-
nish your local board such addi-
tional evidence as is obtainable in
these cases. The telegram of the
provost marshal general suggests
that you carefully review the ques-
tionnaires of registrants placed in
class 2-A or B, class 3-A, B, or C,
and class 4-A, as there are doubt-
less many registrants placed in
these classes who should have a less
deferred classification, if not placed
in class 1. This does not mean that
you shall not review any other cases
but should give special attention to
these classes. I know that you will
welcome the assistance of the gov-
ernment appeal agent and legal ad-
visory board in this matter and we
want you to fully understand that
this department is anxious to co-
operate with your local board in the
adjustment of this matter.

If you find cases which should be
re-opened, you have full authority
to re-open them, and if any of them
are cases in which classification
was made by the district board,
kindly return them to the district
board with your recommendation
and notify this office at once, so
that we may ask the district board
to give such cases preferred atten-
tion.

You are also directed to re-exam-
ine under the new standard of phys-
ical examination now being issued,
all doubtful cases which may have
fallen into Group B, C, or D, either
original examination by the board
or upon rejection at camp, with the
particular purpose of finding men
physically fit for general military
service, who may have been placed
in one of the above mentioned
groups, and of removing to group C
if qualified for special and limited
military service, such men as may
heretofore have been totally reject-
ed or placed in the deferred remedial
group.

The provost marshal general also
ordered that you fix one week in this

"Class 1 Week," during which time
you shall go over these question-
naires and make the adjustments. I
am writing your government appeal

FARMERS DESIRE SPEEDY ERECTION

Silos Have Proven Effective Work
During Past Years and Agri-
culturalists Promote Drive

ENTHUSIASM GROWS DAILY

Average Farmer in State is Man
Who Has Failed to Invest to
Great Extent in Silos

That the silos erected in Rush
county during recent years have
proven most effective in the saving
of crops, was proven today when
numerous farmers, in behalf of the
approaching silo campaign, in var-
ious parts of the county urged the
speedy erection of the grain hold-
ers.

"My silo was filled last fall with
corn which would have been worth-
less now if it had not been kept in
such a place during the winter,"
declared Luther Caldwell, a well
known farmer. Agriculturalists es-
pecially who have already tried out
silos are most enthusiastic in their
promotion of the campaign.

Figures taken from farms not
only in Indiana, but throughout the
United States show that the farmer
who keeps the most livestock, pro-
viding it isn't too much, gets the
largest returns from his investment,
or the largest labor income from his
land. One of the most important
aids in establishing a profitable
livestock system is the silo.

On practically all livestock farms
that possess animals suitable for
the utilization of corn silage, the
silo has an important part to play.
Farmers who have been in the dairy,
beef or mutton making business on
a large scale have seen the econ-
omies of the silo and they have one
to a dozen "corn canneries." The
average farmer is the man in In-
diana who hasn't invested in the silo
to any great extent. His income is
derived from various sources and he
hasn't seen the value of the silo in
his feeding program, in most cases.

Many farmers feed a few heifers,
calves or common steers each fall
and winter. If they had the advan-
tage of a silo they would return a
greater profit to their owner. Sim-
ilar results may be pointed out in
the feeding of the sheep and of full
grown hogs. Horses and mules also
relish some good unmoulded silage.

national crisis the county line should
be dissolved so far as war work is
concerned and guardsmen from
Noble township, Rush county and
Orange township, Fayette county
have been flocking to the guards-
manship colors.

W. R. Phillips is captain of the

YOU CAN NOW EAT YOUR FAVORITE FOOD WITHOUT ANY FEAR

Kramer Says: Eatonic Rids Weak
Stomachs of Acids, Gas, Heart-
burn, Pain and All Distress

What miserable feelings are caused
by an upset stomach! That dull,
heavy, "bloated" sensation that fol-
lows a full meal, robs good living of
half its pleasures. Is there any way out
for you martyrs to stomach weakness?

Yes! H. L. Kramer, the man who
originated Cascarets, has found a
sure, quick relief for indigestion, dys-
pepsia, "sour stomach," heartburn,
formation of painful gases, "bloat-
ing," etc., etc.

He calls this great stomach relief
EATONIC, and it certainly is making
a wonderful record. Countless thou-
sands of people who formerly ap-
proached their meals with dread, now
eat their fill of their favorite foods
without fear of the after-effects.

Mr. Kramer says: "My EATONIC
tablets are the scientific solution of
the age-old problem of indigestion
and all forms of stomach misery."

"EATONIC neutralizes the acids
that form the painful gases," "sweet-
ens the stomach, and gives the gas-
tric juice a chance to do its work as
it should."

"To promote appetite and aid di-
gestion, take EATONIC—one or two
after each meal. They are perfectly
harmless."

"For distress after eating; sour,
"gassy," acid stomach, vertigo, nau-
sea and belching, and that wretched,
puffed-up, "lumpy" feeling, after
over-eating; there is nothing to com-
pare with EATONIC tablets. So
don't suffer another day when you
can be relieved so quickly."

All druggists sell and recommend
EATONIC; guaranteed to do all that
is claimed or money cheerfully re-
funded. Ask your druggist for
EATONIC or send to Eatonic Rem-

T. L. THOMAS IS DEAD AT HOME IN KOKOMO

Former Anderson Township Man Expires Monday at the Age of Fifty-Nine Years

HAD RELATIVES IN COUNTY

Following an illness of eleven weeks duration, T. L. Thomas, 59, a former resident of this county, died yesterday at his home in Kokomo. Death resulted from a complication of diseases.

The deceased who was a cousin of Miss Elgie Thomas of this city, resided in Anderson township during the first twenty-five years of his life and since that time had been residing in Kokomo. He is survived by the widow and one daughter, Clessy. Mester McCarty, half brother and Mrs. Dr. Shoas, half-sister to the deceased both of Kokomo, also survive. The funeral services will be conducted in Kokomo and will be attended by Miss Elgie Thomas of this city, Mrs. Sarah Crane, Edgar and Merit Thomas of Milroy.

the summer. Her parents, Mr. and Mrs. R. G. Budd, are attending the commencement and will return with her.

—Charles Allen, former manager of the Capitol Lumber company, has returned from his home in Mississippi for a short visit here. Mr. Allen will leave June 24 for Little Rock, Ark., where he will enter military training at Camp Pike.

—Mrs. D. C. Compton and daughter, Lavinna, will visit friends in Indianapolis tonight and go to Bloomington tomorrow, where they will attend the commencement exercises of Indiana University, as the guest of Miss Clara Meid, who is in the graduating class.

Word has been received here of the death of Mrs. John Mountain of Anderson. The deceased is well known in this city and death, which came suddenly, was the result of a paralytic stroke Sunday morning.

Men and Women In Fighting Trim

They Keep to the Top
Notch of Health

The spirit of the times demands perfect health and nerves, and keeping them up to the highest degree of efficiency.

Wise men and women have learned that it does not pay to allow health or nerves to run down and are quick to take advantage of Nature's greatest red blood and nerve tonic. Phosphated Iron, the minute they feel they are slowing up.

Whatever your work may be there is no reason why it should continue to tire you; work should only use the right amount of your energy. It is trying to work on your nerves and forcing yourself that wastes your strength, runs you down, gives you those restless nights, loss of appetite and indigestion, when you get up in the morning tired as when you went to bed. There is no sense in anyone being a victim of ill health, poor blood, over work, nerves or the blues when Phosphated Iron will afford such prompt and permanent relief.

All over the country men and women in every walk of life lay their good health, strength and nerves of iron to the use of Phosphated Iron, the red blood and nerve builder, and it will also put you on your feet, make you feel like a live one. It produces results that last, that's what counts, no "if's" about it.

To insure physicians and their patients getting the genuine Phosphated Iron we have put in capsules only. Do not take pills or tablets. Insist on capsules. PITMAN & WILSON and leading druggists everywhere. Rushville, Ind.—(Adv.)

Jump from Bed in Morning and Drink Hot Water

Tells why everyone should drink
hot water each morning
before breakfast.

Why is man and woman, half the time, feeling nervous, despondent, worried; some days headachy, dull and unstrung; some days really incapacitated by illness.

If we all would practice inside-bathing, what a gratifying change would take place. Instead of thousands of half-sick, anemic-looking souls with pasty, muddled complexions we should see crowds of happy, healthy, rosy-cheeked people everywhere. The reason is that the human system does not rid itself each day of all the waste which it accumulates under our present mode of living. For every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out, else it ferments and forms ptomaine-like poisons which are absorbed into the blood.

Just as necessary as it is to clean the ashes from the furnace each day, before the fire will burn bright and hot, so we must each morning clear the inside organs of the previous day's accumulation of indigestible waste and body toxins. Men and women, whether sick or well, are advised to drink each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, as a harmless means of washing out of the stomach, liver, kidneys and bowels the indigestible material, waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Millions of people who had their turn at constipation, bilious attacks, acid stomach, nervous days and sleepless nights have become real cranks about the morning inside-bath. A quarter pound of limestone phosphate will not cost much at the drug store, but is sufficient to demonstrate to anyone, its cleansing, sweetening and freshening effect upon the system.

AN OLD RECIPE TO DARKEN HAIR

Sage Tea and Sulphur Turns
Gray, Faded Hair Dark
and Glossy.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle of this old-time recipe improved by the addition of other ingredients at very little cost. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

Bidding for Labor

The most serious problem that confronts this country these days is that of labor and labor prices. As the former becomes scarcer, the latter rises, until already in many lines the workmen are drawing wages that shame a congressman's salary. We are told that this is unavoidable—but is it? When we get a close-up view of labor conditions, we are inclined to believe much of the great rise in wages unnecessary. Not that we would for one moment oppose an honest wage for any workman, but that all must admit that the matter is becoming serious.

Perhaps the most pernicious influence in the labor situation is the practice that has arisen of competitive bidding for labor. This is particularly noticeable in industries engaged in producing government supplies. Whenever in these industries there arises any scarcity of the labor supply wages are immediately forced up a notch. It is no uncommon thing to hear men who, only a short while ago, found it difficult to earn a dollar a day, boasting of six, eight and ten, and eagerly looking for offers even higher.

The natural result of these conditions is that in many lines, labor has become so scarce as to threaten their continued operation. In many lines of industry these abnormal wages are an impossibility. It would mean bankruptcy. But to some extent they must be met, and the problem is—how?

If our government will kindly inform us how the farmer, for instance, is to retain a man who is offered eight or ten dollars a day on some government or semi-government work, it will confer a great boon the millions of perplexed agriculturists—and others.

Must the remedy be government regulations of wages?

Price of Food Increases

Prices of food as a whole advanced 16 per cent in the year ending March 15, 1918, according to the monthly review of the United States bureau of labor statistics. The only encouraging thing about the whole report is the statement that for the month ending last March 15, showing the retail price of food decreased four per cent.

In this one year period, the only decline in price is that of potatoes. This article decreased 51 per cent. Corn meal shows the greatest increase, or 75 per cent. Sugar shows the least increase, or 4 per cent.

The increases in the prices of the other articles range from 14 per cent to 47 per cent and are in detail as follows: Rib roast, 14 per cent; flour and sirloin steak, 15 per cent each.

Last Time For Patriotic Film

Tonight will be the last opportunity to see the patriotic picture, "The Kaiser, The Beast of Berlin," at the Princess theatre. The picture enjoyed large crowds yesterday.

This is a week of big features at the Princess, for following the spectacular film closing tonight, with Mary Garden in "Thais," and on Friday and Saturday Charlie Chaplin will be here in his newest comedy, "A Dog's Life."

The story of "Thais," the Goldwyn photoplay in which Mary Garden, the most celebrated woman in the world, makes her screen debut, is that of a world-famous novel by Anatole France.

According to the action of the photoplay, "Thais" is a celebrated beauty in the city of Alexandria, whose innumerable love affairs have scandalized the civilized world. The time is just when Christianity is beginning to supersede pagan beliefs.

bread, 17 per cent; butter, 19 per cent; round steak, 20 per cent; pork chops, 21 per cent; eggs, 27 per cent; ham, 31 per cent; milk, 35 per cent; lard, 39 per cent; and bacon, 47 per cent.

Food as a whole was 59 per cent higher in March, 1918, than in the same month in 1913. In this 5-year period, every article increased in price 33 per cent and over. Flour was just twice as high in March, 1918, as in March, 1913. Lard increased 112 per cent and corn meal, 145 per cent. The increase in only four articles was less than 50 per cent. Eleven articles increased over 50 per cent, and 3 of these increased 100 per cent and over. The percentages of increase in detail for this 5-year period are as follows: Corn meal, 145 per cent; lard, 112 per cent; flour, 100 per cent; bacon, 87 per cent; ham and sugar, 80 per cent; bread, 68 per cent; potatoes, 51 per cent; round steak, 49 per cent; sirloin steak, 37 per cent; and butter, 33 per cent.

United We Will Stand

The fact is becoming every day more and more apparent that Germany is finding a united foe too strong for her boasted efficiency. The allied battle lines are standing firm and the Prussian objective of Paris or the Channel ports seems as far from being attained as at any time since the German hordes were turned back at the Marne.

But when Prussian arms fail, Prussian strategy gets on the job. And Prussian strategy is to effect disaffection and division in the ranks of its enemies. Well the Hohenzollerns know that with the allies thoroughly united in aims and method the Prussian ambition is doomed.

German propaganda humbled Russia—not German arms. German intrigue was the one cause of the disastrous Austrian drive into Italy. German propaganda will now—aimed at driving a wedge between the allied nations. No opportunity will be neglected, it matters not how small it may be, of sowing dissensions between the nations leagued against her.

So, if you even think that we have a grievance against any of our allies look that thought up carefully in your heart and never let it see the light of day till this gigantic conflict is fought to a finish.

And when that result shall have been achieved you will doubtless find that you can thank Prussian strategy for having ever entertained a doubt of those who are dying by the side of our boys.

The farmer who is unwilling to raise \$2.25 wheat should ask himself the question if he is unwilling to exchange places with his boy who is facing the German bullets for \$30.00 a month.

A draft on the pool rooms of the cities ought to round up many a good marksman whose time could be better employed in projecting lead balls than in rolling ivory.

A Colorado man had his jaw-bone patched up with a rib. But this isn't the first instance in which a rib was used to perfect a talking machine.

Hindenburg can now plead as his apology for breaking that Paris dog, that his royal master wouldn't let him.

From among her many lovers, the fancy of Thais is engaged by Paphnutius, a wealthy young man who is noted for his learning.

The young philosopher at once falls in love with the beauty, whereupon a jealous rival plans his death. Just as he is emerging from the house of Thais, this rival sets upon him, but in self-defence Paphnutius kills him.

Although violent deaths are common in the Alexandria of that day, and there is no likelihood of Paphnutius being punished by the authorities, his Christian precepts tell him that murder is a heinous sin; and completely overcome with remorse at what he has done, he gives away all his worldly goods and becomes a monk with a group of other men doing voluntary penance off in the desert.

Then, when he has become celebrated for his holiness, he conceives the idea of converting Thais because it would have tremendous effect on people everywhere in the great cause, by saving the soul of the most notorious figure in the world of sin. The outcome of this situation is one of the most thrilling portions of the film.

SETTLED AS JURY WAITS

Attorneys in Case Set For Trial Today Meet in Knightstown.

While the jury waited at the court house this morning for the attorneys in the case of Sarah E. Glascock and others against George and Lola Hudson for possession, the lawyers met at Knightstown and settled the case. It was learned about ten o'clock that the case would be dismissed and the jury was sent home, with instructions to return tomorrow for a trial.

In the case of the state on relation of Ruby E. Ronan against Clyde Martin, the court has ruled the defendant shall pay the girl \$300 for the maintenance of her child.

C. H. (Nick) TOMPKINS

Mr. Robert Williams,
Galesburg, Mo.

December 27th, 1917.

Dear Sir:

You are right when you say in yours of December 24th that Senreco is a remarkably good tooth paste and that it has a strong story to tell, but the difficulty lies in putting that story in such language as will convince the public.

The Senreco story of a medicinal paste that not only cleanses the teeth but also keeps mouth and gums healthy, when put on paper does not sound very different from the story of just any ordinary dentifrice.

For that reason we make every effort to get the people to try Senreco. After that Senreco tells its own story—and fully 90% of them are Senreco users and boosters from then on.

There is a Senreco user in Pittsburgh who has introduced our product into the families of thirty-four of his friends. Enthusiasm? No, not entirely. Simply a case of Senreco making good. It is just as stated above. If they will try Senreco—if they once become acquainted with a real dentifrice—with what a dentifrice can and should be—they are Senreco boosters from that time on.

Your druggist or toilet counters can supply you with Senreco. It comes in large, two ounce tubes and retails at 25¢.

Why not get a tube to-day? Try it. We stand behind every package of Senreco with a money-back guarantee.

Very truly yours,
SENRECO,
CINCINNATI.

Commencement and Final Exercises of St. Mary's Catholic School to Be Conducted

THREE TO BE GRADUATED

Entire School to Participate in Program—Rev. Father Lyons Will Award Diplomas

The commencement exercises at St. Mary's Catholic school, when three students will be graduated, will take place Wednesday evening, June 12 at 8 o'clock in the church hall. In addition to the graduation exercises, the closing exercises, in which all the students of the school will participate, will be held.

Miss Allene Geraghty, Miss Helen Mudden and John Ryan will be graduated and in addition to the diplomas for studies which will be awarded by the Rev. Father Lyons diplomas in penmanship will be awarded to Dominica Dimatteo and Eloise Kelly.

A operatta, "The Foolish and Wise Virgins," will be the feature of the program given by the underclassmen and "The Discontented Sisters," in which the girls in the graduating class will participate, is also one of the interesting numbers on the program.

The opening number on the program will be a duet by Eloise Kelly and Mary Kinsley, "Welcome Waltz," followed by the opening song rendered by the primary department. "The First Wedding," will be the piano rendition by James Keating and a piano trio will be played by Miss Eloise Kelly, Miss Marie McCoy and Miss Margaret Sullivan.

Other numbers on the varied program will be as follows: "Whose Turn?" Ebert Meyers, John Coyne and Bert Mills; "Through Georgia," William Tyner and Robert Keating; "The Cavalier," Margaret Kinsley; "The Cross and the Flag," John Ryan; "Pretty Flowers," Dominica Dimatteo, Margaret Kirk, Gladys Newman and Delores Ewbank; "Red, White and Blue Waltz," Elizabeth Tyner, Catherine Cauley and Virginia Carter; "Little Starlight," Mary Gale and Isabelle Schrader; "La Grace," Gertrude Binkley and Gladys Newman; "Living Flag," junior boys; "Mumps Brigade," juvenile boys; "Flora," Eloise Kelly; "My Own United States," Senior Valedictory—class of 1918.

TODAY IS SUMMIT OF COLLEGE CAREER

Is Popular Commencement Day Through Entire Country Where Exercises Are Most Simple

WAR SPIRIT STRIKES DAY

Economy Example Is Set in Large Colleges Where Faculty Member Delivers Address

Chicago, Ill., June 11.—Today is the popular commencement day for colleges and universities in this section of the country. The day on which the college man and woman get the degrees which mark the summit of his scholastic career generally is marked by display, more or less costly.

This year the war spirit has struck commencement day. Exercises of simple sort seemed to be in favor. Some of the larger universities set an example in economy by having a faculty man, generally the president, deliver the principal address. Schools following this plan were Illinois and Wisconsin. At the same time there were many followers of the old program. Some of the speakers at college commencements in this territory this week are:

Illinois, Urbana, Ill., President Edmund James James.

Northwestern, Evanston, Ill., Bishop F. J. McConnell, Denver, Colo.

Michigan Agricultural, Lansing, Mich., Liberty Hyde Bailey, Cornell University.

Notre Dame, Notre Dame, Ind., Edward N. Hurley, chairman United States Shipping board.

Wisconsin, Madison, President C. R. Van Hise.

PURDUE ALUMNI BACK FOR COMMENCEMENT

Men Attending Festivities Far Below Usual Number Because of 1,900 Being at War

NEW ARMORY IS INSPECTED

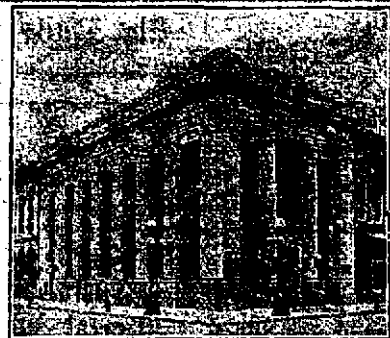

Lafayette, Ind., June 11.—Alumni of Purdue University returned to their alma mater today to take part in the commencement week ceremony. The number of men attending the alumni day festivities was far under the usual number on hand for the affair. The service flag containing 1,900 stars accounted for the missing.

The baccalaureate address was delivered yesterday by Father Perigod, a lieutenant in the French army and a speaker sent out by the National Council of Defense.

Chief interest outside of the alumni reunions today centered in the inspection of the new Purdue armory which now houses 500 men in training for the government auto mechanics work.

TO DECIDE ABOUT FOURTH CELEBRATION

County Council of Defense is Called to Meet Saturday Afternoon at Two O'clock

NOT LOOKED UPON FAVORABLY

T. M. Green, county chairman of the council of defense, has called a meeting of that organization to be held Saturday afternoon at two o'clock in his office in the Miller law building.

The possibility of a patriotic meeting to be held in connection with the Fourth of July demonstration which will be held throughout the state as the result of the request of the state defense council, will be discussed at the meeting where all township officials have been asked to assemble. Although the proposed patriotic demonstration has not been looked on favorably by a number of farmers, nothing definite will be decided until after Saturday's meeting.

MERCHANTS DISCUSS SELF SERVED SYSTEM

Becomes Necessary as the Result of Merchants Losing Numerous Employees Through Draft

TAKE UP MANY WAR PROBLEMS

Indianapolis, Ind., June 11.—The "self served" system of merchandising was discussed by merchants of the state today attending the annual convention of the Indiana Retail Dry Goods association. Because of the great scarcity of workers on account of the demand for men and women in war work, the merchants declared that they believed the step might be necessary in a short time.

Other war problems were taken up at the session, including discussion of tax question, both federal and state.

The peculiar market conditions obtaining now, and the method of marketing merchandise under the abnormal circumstances were discussed. Meyer Heller of Newcastle, president of the organization was on the program to tell of the work he has been doing the last few months for the government as its representative in the retail merchant field of Indiana.

Miss Mary Elizabeth Beale underwent an operation at the Dr. Sexton hospital today for the removal of her tonsils and adenoids.

Busy Business Man

Science Helps Them Out After Recklessly Abusing the Stomach

The most reckless man in regard to health is the busy business man. At noon he rushes out for a bite to eat. He bolts his food without proper mastication, and heaps on his stomach an extra burden greater than it is able to carry without breaking down.

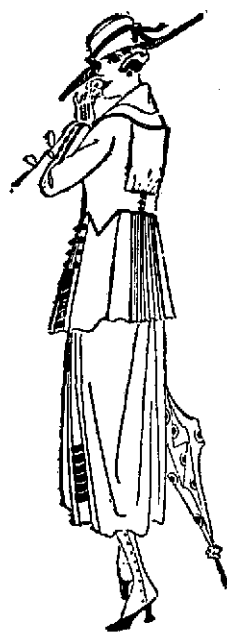

His overworked stomach is crying for help; it appeals to him for relief in various ways: Expulsion of sour gas, water-brash, sour taste in mouth, heaviness after eating, shortness of breath, bad breath etc.

One Mi-o-na tablet taken with or after each meal will help any sufferer from dyspepsia wonderfully. It aids the stomach in the work of digestion which it must perform.

Mi-o-na tablets are sold by Johnson's drug store with a rigid guarantee to overcome dyspepsia and all stomach troubles or money back. They make eating a pleasure.

Mi-o-na cleanses and purifies the stomach and bowels and puts vigor and strength into the overworked tissues. It is the surest stomach tonic in the world.

Sold by leading druggists everywhere.—(Adv.)

Hearse As a Camouflage To Carry Booze From Ohio

Chief Mourners, With Sad Countenance, Adopt Unique Method of Violating Law

HEARSE WAS THROUGH HERE

The fact that "live ones" disguised as "dead ones" are being smuggled across the Ohio line into dry territory in Indiana, is disclosed by a story in the Connersville News, which has some local interest, because the motor hearse which is alleged to have been the conveyance in which the booze was hauled, was seen passing through Nashville Sunday. Here is the story:

That "live" bottles are being smuggled across the Ohio line, disguised in the livery of death, is the romantic sense of stories waited from Harrison this way. It is certain that, yesterday afternoon, J. S. Petro and others in East Connersville, and many on the Everton road and on the Dixie Highway north of town, saw a great gray hearse move northward, driven by a solemn chauffeur, by whose side sat a man with a mournful countenance. Moreover, Mr. Petro saw through the sides of the sepulchral rig. There was no casket in it, nor was there anything else, in sight. But those familiar with the inner arrangement of motor hearses know that shelves and hiding places are built in, giving room for the concealment of a liberal shipment of bottled booze, should a boundary jumping genius decide to utilize it in

such unseemly fashion. Two hearses passed over the same route, yesterday. The second was white, and empty also. Locally, not a thing is known about these two conveyances. The Cincinnati Enquirer yesterday printed the following, under a Harrison date:

A big gray auto hearse, panoplied in all the somber draperies which betoken death and heartaches and, tears rumbled out of a well-known Harrison garage last night bound for Muncie, Ind., which is in the arid district of the Hoosier state.

The Indiana dry law is severe in its penalties for bringing intoxicants into the state, hence great care has to be exercised on the part of the blockade runners if they escape the lynx-eyed minions of the law.

The employment of the big gray hearse as a conveyance in which to transport beer and whiskey, although used in other localities, is regarded by many as a master bit of genius.

It is said to be the business of one of the camoufleurs who sits on the front seat of the big dead wagon to assume a sad and dejected appearance on meeting any one on the road or passing an officer, and if his partner should be engaged in conversation by inquisitive strangers it is his duty to sob and sigh and wipe his weeping eye, thereby giving out the impression that the contents of the big hearse are the remains of his nearest and dearest earthly friend.

MISS JESSIE PEARCE ENLISTS AS NURSE

Rushville Girl is Accepted by American Red Cross For Duty Over The Sea

SECOND FROM RUSH COUNTY

Miss Jessie Pearce, daughter of Mrs. Florence Pearce of this city, who graduated from the nurses school at the Robert Long hospital in Indianapolis recently, has been accepted by the American Red Cross organization for overseas duty and is awaiting orders to sail.

With the enlistment of Miss Pearce in nurse's work for overseas service, Rush county has added the second name to her nurses honor roll. Miss Hazel Bennett, who is actively engaged in hospital work abroad, was one of the first of America's nurses to cross the sea and was a member of the Lily base unit.

Miss Pearce entered her name for Red Cross work in February and with the country's urgent call for graduated nurses to assist in the mercy work abroad, she was one of the first of the Hoosier girls to be selected.

LAUNCH RECORD SALE IN THRIFT CAMPAIGN

Indianapolis Drive Starts With Address by Ex-President Theodore Roosevelt at Fair Grounds

40,000 TO APPEAR IN PARADE

Indianapolis, Ind., June 11.—With Colonel Theodore Roosevelt as the chief speaker, this city's campaign for a record breaking sale of thrift stamps was launched today. The campaign for sale of the stamps has been taken up with renewed vigor throughout Indiana and will continue for two weeks.

Roosevelt speaks at the Coliseum at the state fair grounds.

Tomorrow one of the largest demonstrations in the history of the city is planned. It is expected that 40,000 persons will participate in a parade. A large number of school children who have been selling stamps for several months will take part in the procession.

FORMER RESIDENT DIES IN COLORADO

Mrs. John Schafer Dead After Long Illness of Cancer—Relatives in Southern Part of County

BURIAL MADE IN COLORADO

Word has been received here of the death of Mrs. John Schafer, formerly of this county who, during the last fifteen years of her life, resided in Pierce, Colo.

The deceased was the daughter of Mr. and Mrs. Aaron Davis of Letts. She was forty-nine years of age and during the last few months of her life, had suffered with a complication of diseases which later developed into cancer which caused her death.

Mrs. Emma Evans, sister to the deceased, who resides in the southern part of the county, has been at her bedside during the last days of her illness. She is survived by one son, Paul, and five brothers, the Rev. Henry Davis in France, John of Oregon, Albert of Wyoming, Everett of California and Clifford of Letts corner. Burial will be made in Colorado.

There are over a hundred members of the local lodges who have autos and each one of these has been invited to form parties and attend. Everyone going is expected to report at the hall before the time set to start.

WILL VISIT I. O. O. F. HOME

Delegation of Odd Fellows and Rebekahs Going Next Tuesday

The members of the Rebekah and Odd Fellows lodges will enjoy an outing at the Odd Fellows home at Greensburg next Tuesday. The trip will be made in autos leaving the hall here at 10 a. m. Lunch will be taken and spread upon the beautiful lawn. The afternoon will be spent in visiting the home and the guests there. There are nearly two hundred children and afflicted members of the two orders, who are guests in this home maintained by the order. Great interest is being shown in the affair and a large attendance is anticipated.

National and Local Meat Business

The meat business of the country is conducted by various agencies—

By small slaughter-houses in villages—

By local Abattoirs or small Packing Houses in towns—

both

Using only a part of the local live stock supply and

Furnishing only a part of the local demand for meat,

These slaughtering and distributing agencies fill a well defined but necessarily restricted place in the distribution of the products of live stock.

But only packers like Swift & Company, organized on a national scale, are able to undertake the service that is more vitally important, involving

An Obligation to the Producer

To purchase for spot cash all the live stock the producer may send to market for slaughter.

An Obligation to the Consumer

To make available to every consumer, everywhere, in season and out, the full supply and variety of meat products, of the highest standard that the market affords.
